Dykes Medal—The Dykes Medal is awarded to only one extra good new iris each year by the A.I.S. To win this high honor an iris must first win an H.M., then if it is good enough it may win an A.M., but to win the coveted D.M. it must still rate higher in the opinion of the judges of the A.I.S. than any other iris that has won the H.M. and A.M. When these most critical judges award the Dykes Medal to an iris we may be sure that iris is nearly perfect. These super iris may sell at from \$10 to \$25 or more each when first introduced.
